

# NEW IMAX® Films... NEW Learning Adventures!

## Teacher's Note

### IMAX® Films Meet FCAT and New Science Standards

- ✓ IMAX® films are selected for their educational content as well as their visual and dramatic impact.
- ✓ Our films meet many FCAT and new Florida Science Standards such as:
  - The Practice of Science
  - The Characteristics of Scientific Knowledge
  - Properties of Matter
  - Earth Systems and Patterns
  - Diversity and Evolution of Living Organisms
  - Organization and Development of Living Things
- ✓ IMAX® films present unique opportunities to integrate visual arts with required core content areas.
- ✓ More detailed critiques (including FCAT standards) are available upon request.

## NEW! IMAX® 3D FILMS for 2011-2012

**Sea Rex 3D: Journey to a Prehistoric World**  
Through the power of IMAX® 3D, experience a wondrous adventure from the dinosaur age. Join Julie, an imaginative young woman, as she journeys from a modern-day aquarium to the Triassic, Jurassic and Cretaceous periods. Explore an amazing underwater universe inhabited by larger-than-life creatures -- including the powerful Liopleurodon, long-necked Elasmosaurus and gigantic Shonisaurus -- which were ruling the seas before dinosaurs conquered the earth. Thanks to state-of-the-art ultra-photorealistic imagery, see science come alive on the giant IMAX® screen! Immerse yourself in a lost age, 200 million years back in time, and get ready for a face-to-face encounter with the T-rex of the seas!
